Not only did I leak the complete financial history of Director Wang's corruption, I hacked his sex robot to only scream his rival's name. OK, OK... we can get back to Firewall stuff now. Your family sold itself into corporate bondage on Mars to escape Earth's climate catastrophe. Despite their skills your parents struggled to eke out a bare-bones existence in the overtaxed economy of post-Fall Mars. As hypercorps built their wealth, League officials got fat off corruption, and friends and family languished as indentures—you got

involved with hacktivist groups tied to the Barsoomian movement. On one data liberation project, you smelled a rat; suspecting infiltration, you checked into the backers. It turned out you'd been working indirectly for Firewall, and soon you were working for them in earnest. Your name is pronounced like "chee."
